

This brochure was created by youth for youth, to help you reach out and say "Howzit?" to a friend. You can help strengthen your 'ohana.

We count on our friends to be there when we need them to talk story, cruise, and just be on our side.

We've seen our friends get cracks. Shoots, maybe even had a few ourself. Doesn't feel good, does it?

Hey, no shame. You can do something about it.

With everyone's effort, we can all make a difference and not let another friend of ours, and even keiki we don't know, be at risk for abuse and neglect.
